

CORONAVIRUS DISEASE 2019 (COVID-19) UPDATE TO STAKEHOLDERS: 15 MARCH 2020

QTEC Solutions seeks to provide all with the following information regarding the Coronavirus Disease 2019 (COVID-19) pandemic, and our actions taken to mitigate adverse impacts from this highly dynamic and continuously developing situation:

QTEC Solutions Business Continuity

QTEC Solutions has already adopted workplace protocols against COVID-19 as outlined by the Centers for Disease Control and Prevention (CDC), and will continue to monitor the CDC Website and related sources of reliable information for updates. For this guidance, please see the link below:

<https://www.cdc.gov/coronavirus/2019-ncov/specific-groups/guidance-business-response.html>

Fortunately, we at QTEC Solutions can and already do perform close to 100% of our work remotely. So, while we do not foresee the need to fully close our headquarters office at this time, we will ensure that any such required future action will be seamless for and transparent to you, our customers and stakeholders.

Electronic Component Supply Chain Updates

Certainly, we understand your emerging concerns regarding the electronic component supply chain. As you have already seen in Q-Star™, we have compiled and published a document containing links to all COVID-19 related statements, etc., released by our supported electronic component manufacturers. We will constantly update this document as we obtain additional information from our supported manufacturers. Please know that we continue to be your vigilant team member in supporting your mission and business needs.

Please do not hesitate to contact us with any questions, comments, or concerns. For your convenience, and for a most rapid response, we have established a dedicated group email address for this emergency, at covid@qtec.us. Further, our headquarters phone number remains +1 (951) 270-5357.

We are all in this together,

John Diedenhofen
President
QTEC Solutions, Inc.
